

detections.sendFramesToBehavior
Algorithm

detections.sendOneFrameTo
AllDetectionAlgorithms

detections.terminateProcesses

```
graph LR; A[detections.sendFramesToBehavior Algorithm] --> C[detections.terminateProcesses]; B[detections.sendOneFrameTo AllDetectionAlgorithms] --> C;
```

The diagram illustrates a flow where two separate actions or states on the left converge into a single action or state on the right. The first box, 'detections.sendFramesToBehavior Algorithm', and the second box, 'detections.sendOneFrameTo AllDetectionAlgorithms', both have blue arrows pointing towards the third box, 'detections.terminateProcesses'.
