

detection_utils.core.box
_predictor.KerasBoxPredictor.call

detection_utils.core.box
_predictor.BoxPredictor.predict

detection_utils.core.box
_predictor.KerasBoxPredictor.
_predict

```
graph LR; A[detection_utils.core.box_predictor.KerasBoxPredictor.call] --> C[detection_utils.core.box_predictor.KerasBoxPredictor._predict]; B[detection_utils.core.box_predictor.BoxPredictor.predict] --> C;
```

The diagram illustrates a call graph where two functions, `detection_utils.core.box_predictor.KerasBoxPredictor.call` and `detection_utils.core.box_predictor.BoxPredictor.predict`, both call the method `detection_utils.core.box_predictor.KerasBoxPredictor._predict`. The source functions are in white boxes, and the target method is in a gray box. Blue arrows indicate the direction of the calls.
