```
graph LR; A[detection_utils.core.preprocessor_test.PreprocessorTest.testRandomHorizontalFlipWithEmptyBoxes] --> D[detection_utils.core.preprocessor_test.PreprocessorTest.createEmptyTestBoxes]; B[detection_utils.core.preprocessor_test.PreprocessorTest.testRandomRotation90WithEmptyBoxes] --> D; C[detection_utils.core.preprocessor_test.PreprocessorTest.testRandomVerticalFlipWithEmptyBoxes] --> D;
```

The diagram illustrates a dependency or reuse pattern. Three test methods on the left (A, B, and C) all point via blue arrows to a single utility method on the right (D). The utility method is highlighted with a gray background, suggesting it is a shared resource or a common function used by the tests.
